Dear Parents / Guardians

20<sup>th</sup> Sept. 2018

As Head of English, I look forward to an exciting Term of instruction, analysis, projects and research based activities as we expand our knowledge to gain wide range of skills critical to the success in high school, college and beyond.

**Model United Nations Course at KIS** is a simulation-based course that combines critical thinking, writing, public speaking, debate, and negotiation skills. Students assume the role of delegates to a real UN committee and tackle current topics on the UN agenda. We firmly believe that positive parental involvement is one of the most important factors in the academic success of the student. Whether it's encouraging your child/ward to sign up for the club at their school, teaching them how to tie a tie for the first time, helping them research, or sending them to conferences, parents are one of the most important parts of any Model UN program. We want to show you just how important Model UN can be for your child/ward, so that when they come home talking about "Brazil" and "France" as if they're people, or win a "gavel", you know they're development critical skills they'll carry with them for the rest of their lives.

## **Benefits - College and Careers**

Model UN helps students on their paths to college and careers- dozens of students go on to Ivy League universities, and MUNers fill youngest generation of employees at the UN, Foreign Services around the world, and a wide range of the most prestigious careers around the world. Model UN gives students the ideas and tools they need to make real Change in the world.

**Our School is very keen in pushing this project forward. We believe that positive parental involvement is vital to a child's success in school, therefore we seek your support to encourage your child to join this course.**

There is also a confirmation letter attached to this letter. We count on your cooperation at bringing payment early to secure this offer.
